

Information for Excursion

Date: 01st March 2020

- I. **Agricultural Technology Park of CE SAIN:** RUA established Center of Excellence on Sustainable Agricultural Intensification and Nutrition (CE SAIN). CE SAIN is established with the aiming to foster private sector innovation, agricultural research, education and training, and public-sector capacity building through improved collaboration and knowledge sharing focusing on enhancing food and nutritional security in Cambodia. The Agricultural Technology Park is to display high-potential technologies and strategies to sustainably intensify smallholder-farming systems. CE SAIN is introducing various promising technologies that we consider adaptable by smallholders farmer in the area.

2. Conservation Agriculture

Mr. Phong Sareth Conservation Agriculture Farm: model of soilless growing, chicken raising, pig raising, and other livestock.

- 3. Silk Farm:** The visit will bring participant to see the traditional silk production and products made by local people. The participants also can see how they raising the silk worm for silk production. Moreover participants can buy silk product like silk purse, scarf etc. as the souvenir.

4. Visit Angkor Wat: The last activities for our tour is bring all participants to visit **Angkor Wat temple**, a wonderful temple in Cambodia. Participants will experience with the amazing architecture of Khmer empire in the ancient time.
